

Two-Slice Stainless Steel Toaster with Browning Control

This two-slice toaster is constructed from stainless steel and offers consistent toasting. It has wide slots, multiple browning settings, and defrost, reheat, and cancel functions.

Overview

Modern Stainless Steel Design

The ST-2016 stainless steel toaster is designed for consistency and ease of use in professional or commercial settings. Its durable construction ensures a long lifespan, while the brushed finish provides a clean, modern aesthetic. Featuring versatile browning controls and intelligent auto-centering, it delivers uniform toasting results for various bread types.
