

# Two-Tier Stainless Steel Hand Cart

This two-tier stainless steel hand cart is designed for warehouse transportation. It features a robust frame with a top and bottom shelf for increased carrying capacity and is equipped with swivel casters for easy maneuverability.

## Product Overview

### Industrial Transport Solution

This two-tier stainless steel hand cart is engineered for efficient goods transport in industrial and commercial environments. The robust design features two spacious shelves that maximize carrying capacity while maintaining a stable footprint. Constructed from high-quality stainless steel, the cart offers exceptional durability and superior corrosion resistance for long-term use.

## Technical Specifications

### Design Features

- Two-tier shelf system
- Robust structural frame
- Swivel casters for mobility

### Suitable Environments

Warehouse • Industrial • Commercial

<b>Material</b>	High-quality stainless steel
<b>Primary Benefits</b>	Corrosion Resistant, High Durability, Easy Maneuverability
