

Type 27 Depressed Center Grinding Wheel 4x1/4x5/8 Inch

This Type 27 depressed center grinding wheel is designed for use on angle grinders, suitable for grinding, blending, and finishing. It has dimensions of 4 inches in diameter, 1/4 inch thickness, and a 5/8 inch arbor size.

Product Overview

High-Performance Grinding Solution

This Type 27 Depressed Center grinding wheel is engineered for superior cost-performance and safety in demanding metalworking environments. Designed for versatility, it effectively processes metal, non-ferrous metals, non-ferrous alloys, concrete, and natural stone. It is particularly effective for grinding grey cast iron, cleaning switchboards, and chamfering edges, offering a sharp, aggressive grinding action.

Technical Specifications

Wheel Type

Type 27 • Depressed Center

Abrasive Grade

1 A / WA

Compatible Materials

Metal, Non-ferrous metals, Non-ferrous alloys, Concrete, Natural stone, Grey cast iron
