Product Overview

Robust Lighting for Demanding Environments

The U Series LED Tri-Proof Light is a highly durable and energy-efficient lighting solution engineered for challenging industrial and commercial spaces. Featuring advanced ingress and impact protection, this luminaire delivers consistent, high-quality illumination while reducing energy consumption by up to 50%. Its maintenance-free design and versatile installation options make it an ideal choice for large-scale facilities requiring reliable, long-term performance.

Technical Specifications

IP Rating	65
IK Rating	8
Surge Protection	1.5 Kv
Flame Retardancy (Glow Wire)	850
Operating Temperature	-20 to 40

Features & Benefits

Key Highlights	Energy Saving, Maintenance-free, Tri-proof Design, Visual Comfort
----------------	---

Installation & Application

Installation Methods

- Ceiling mounted
- Suspended

Recommended Applications

- Car parks
- Warehouses
- Pedestrian walkways
