

U-Shaped Compact Fluorescent Lamp

This compact fluorescent lamp is designed as an energy-efficient alternative to traditional incandescent bulbs. It features a U-shaped tube to enhance light output and fits standard screw bases for easy installation.

Product Overview

Energy-Efficient Lighting Solution

This U-shaped compact fluorescent lamp (CFL) serves as a highly efficient alternative to traditional incandescent bulbs. Designed for both residential and commercial environments, it provides consistent light output while significantly reducing energy consumption. Its standard screw base ensures easy installation across a wide variety of existing lighting fixtures, making it a practical choice for long-term energy savings.
