

UFO Round 20W Solar-Powered LED Garden Light

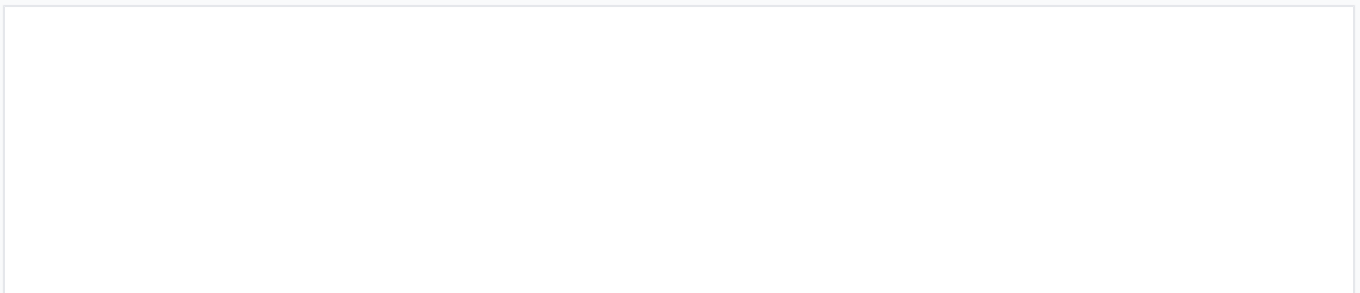

This UFO-shaped garden light provides efficient outdoor illumination. The 20W LED is solar-powered, offering a sustainable lighting solution for landscapes and gardens.

ADDITIONAL IMAGES

Product Overview

The all-in-one design allows for simple, cable-free installation and automatic dusk-to-dawn lighting.

Integrated Solar Lighting Solution

This all-in-one solar-powered LED light features a distinctive UFO-shaped design, engineered for efficient outdoor landscape and garden illumination. By integrating the light source, solar panel, and battery into a single unit, it eliminates the need for external wiring or grid electricity. The system automatically manages lighting cycles, turning on at dusk and off at dawn for a truly autonomous, sustainable lighting experience.

Technical Specifications

Luminous Efficacy

160 lm/W
Efficiency

Ingress Protection

IP65

Power Rating

20 W

Lighting Angle

360 degrees

Battery & Performance

Battery Technology	Li-ion
Cycle Life	1500
Rainy Day Autonomy	10 days

Features

Key Features

- Integrated design (cableless)
- Automatic dusk-to-dawn operation
- Smart remote control
- Advanced ALS2.0 technology
- Aluminum alloy construction
