Product Overview

Professional Grade AC/DC Power Solution

This versatile wall-mounted power adapter is designed for reliable performance across a range of electronic applications, including computers, telecom, and audio/video equipment. It features robust safety protections, including overcharge and short-circuit prevention, ensuring safe operation. The unit delivers quiet, efficient power with thermal stability for consistent use.

Technical Specifications

Maximum Power	18 W
Connector Type	5.5*2.1mm Barrel Connector
Safety Certifications & Features	UL Approved, Overcharge Protection, Short Circuit Protection
Input Voltage Range	100-240V AC

Performance Metrics

Operational Efficiency

50 Hz Min Frequency	60 Hz Max Frequency
-------------------------------	-------------------------------

Compatibility

Supported Applications

- Computers
- Telecom equipment
- Audio/Video equipment
