

UK Plug Power Adapter for Communication Devices

This compact power adapter is designed for network communication devices. It features a UK-style plug and a black plastic housing.

Overview

Reliable Power Solution

This compact power adapter is specifically engineered to provide stable, consistent power for network communication devices. Designed with a standard UK-style plug, it ensures seamless compatibility for facilities operating within the UK electrical infrastructure. The durable black plastic housing and integrated power cord offer a reliable, ready-to-use solution for various communication equipment needs.

Technical Specifications

Input Voltage Range	100-240V
Input Frequency	50/60Hz
Max Input Current	0.3 A
Output Voltage	5 V
Output Current	800 mA
Total Output Power	4 W

Compliance

Certifications	CE
