Product Overview

Professional Vertical Power Solution

This vertical power strip tower provides a high-density charging solution for modern office environments and workspaces. Featuring 12 UK standard AC outlets and 3 integrated USB ports, it enables efficient power management for laptops, mobile devices, and peripherals in a compact footprint. The design prioritizes safety with built-in surge and overload protection, making it a reliable choice for professional equipment.

Power Specifications

Rated Power Capacity

3250 W
Max Load

AC Outlets	12 ports
USB Charging Ports	3 ports
Rated Input	250V, 13A
USB Total Output	5V/3A max

Physical Attributes

Cable Length	2 meters
