

UL Certified Power Connector

This connector is suitable for use in electric appliances that adhere to UL/CUL standards. It provides a secure and reliable power connection for a variety of applications.

Product Overview

Professional UL Certified Power Connector

The XR-505C is a professional-grade 6-pin American power connector designed for reliable electrical performance. Built to stringent UL817 and CSA C22.2 standards, this component ensures safety and durability in demanding applications. Its robust design is ideal for household electronics and kitchen appliances requiring high-quality, certified power solutions.
