

Ultrasonic Air Humidifier with USB Car Adapter

This ultrasonic air humidifier features a transparent water tank with a 250ml capacity. It is powered by a USB connection and includes a car adapter.

Product Overview

Compact Ultrasonic Humidification

The SU729 Ultrasonic Air Humidifier is designed for versatile use, featuring a compact form factor that makes it ideal for vehicles or small personal spaces. Equipped with a convenient USB power connection and an included car adapter, it ensures easy operation on the go. The transparent water tank allows for clear monitoring of fluid levels, while its compliant design meets essential safety and environmental standards.
