

Ultrasonic Cool and Warm Mist Humidifier with Timer

This ultrasonic humidifier increases humidity with cool or warm mist selection. It features mist control, temperature and humidity settings, a timer, a low water level alarm, and blue light decoration.

Overview

Professional Ultrasonic Humidification

This advanced ultrasonic humidifier provides versatile climate control by offering both warm and cool mist modes to suit different environmental needs. Designed with efficiency in mind, the unit features a generous 4-liter capacity and precise humidity control settings to ensure optimal air quality in any indoor space. Integrated smart features like an automated timer, low-water alert system, and sleek LED status lighting make it an ideal choice for maintaining comfortable, healthy atmospheres in offices and residences.

Technical Specifications
