

Ultrasonic Cool Mist Humidifier with Adjustable Output

This ultrasonic cool mist humidifier improves air quality by adding moisture to the air for a more comfortable environment. It features a transparent water tank and adjustable mist output control.

Product Overview

Professional Air Quality Solution

The Ultrasonic Cool Mist Humidifier is designed to optimize indoor air quality by providing consistent, adjustable moisture levels. Utilizing advanced ultrasonic technology, the unit delivers a fine mist through an integrated directional nozzle, ensuring targeted coverage for various environments. Its compact, durable design and whisper-quiet operation make it an ideal choice for offices, nurseries, and bedrooms.

Technical Specifications

Technology Type	Ultrasonic
Output Control	Manual control dial
Mist Distribution	Directional nozzle

Design and Build

Construction Material	Durable plastic
