

# Ultrasonic Room Humidifier with Adjustable Mist

This ultrasonic humidifier uses ultrasonic technology to create a fine mist for efficient humidification. It features adjustable mist settings and a large water tank for extended operation.

## ADDITIONAL IMAGES

## Overview

### High-Capacity Ultrasonic Humidification

This ultrasonic room humidifier is engineered for high-performance moisture distribution in larger spaces. Featuring a generous 4L tank capacity and adjustable mist output ranging from 200 to 800 ml/h, it ensures consistent comfort for residential or office environments. With a focus on user safety and ease of use, it includes automatic power-cut protection during water shortages and a quiet operation profile under 32 dB.
