

Under Cabinet Kitchen Range Hood

This kitchen range hood is designed for effective ventilation in residential kitchens. It features a slim profile for under-cabinet mounting, integrated lighting, and multi-speed fan controls.

Overview

CXW-200-D Series Range Hood

The CXW-200-D Series kitchen range hood provides an effective ventilation solution designed specifically for residential kitchens. Featuring a slim profile suitable for under-cabinet mounting, this unit efficiently removes smoke, odors, and grease from the cooking environment. It includes integrated lighting for surface visibility and multi-speed fan controls to allow for adjustable airflow based on cooking needs.
