

Under Desk Keyboard and Mouse Tray with Wrist Rest

This keyboard tray is designed to be easily hidden under a desk. It provides more space on the desktop.

Product Overview

Ergonomic Workflow Optimization

This under-desk keyboard and mouse tray is designed to maximize your desktop workspace while promoting ergonomic health. Featuring a smooth sliding mechanism and adjustable tilt, it ensures a comfortable typing angle for long-term use. Built with a heavy-duty steel frame and a premium MDF surface, this tray provides a stable and reliable platform for daily office or home office tasks.
