

Uninterruptible Power Supply

This uninterruptible power supply (UPS) offers backup power during power outages. It keeps connected devices running, preventing data loss and hardware damage with surge protection, voltage regulation, and battery management.

Product Overview

Professional UPS Solution

This Uninterruptible Power Supply (UPS) is engineered to provide reliable backup power for sensitive electronic equipment and computing systems. By offering surge protection and voltage regulation, it ensures a stable, clean power delivery during outages to prevent hardware damage and data loss. Its robust tower design makes it an ideal choice for small to medium-sized business applications requiring continuous uptime.

Key Features

Core Capabilities

Surge Protection, Voltage Regulation, Battery Management, Data Protection

Physical Design

Form Factor

Standalone Tower

Compatibility

Ideal Applications

- Desktop Computers
- Network Hardware
- Sensitive Electronics
- Small to Medium Businesses
