

# Universal 2.1A USB Travel Charger

This travel charger is designed for both travel and home use. It provides a convenient and reliable power source for various devices.

## Product Overview

### Universal Travel Power Solution

This universal wall charger is designed for portability and efficiency, making it an ideal companion for travelers and daily use. It features a smart IC-controlled charging process that ensures rapid, safe power delivery while protecting your devices from overcharging. With a wide input voltage range, it is compatible with various international power standards, providing a reliable power source for a wide array of mobile phones and USB-powered devices.

## Technical Specifications

### Output Current

**2.1 A**

Output Current

Input Voltage	AC 100-240V
Input Frequency	50/60Hz
Output Voltage	5 V

## Compatibility & Features

### Safety Protections

- IC-controlled charging process
- Constant voltage and temperature regulation
- Automatic saturation detection
- Overcharge protection

Compatible Brands	Apple, Huawei, Xiaomi, OnePlus, Vivo, OPPO, Samsung, Meizu, Nokia, Nubia
Recommended Capacity	Suitable for lithium-ion batteries below 3400mAh

## Certifications

### Standards Compliance

International Safety Standards • Quality Tested
