Product Overview

Versatile Electrical Integration

The Universal AC Power Socket with USB Charging Ports combines robust electrical connectivity with modern aesthetic design. Built from toughened glass and premium PC materials, this unit offers high fire resistance and a durable, color-stable finish. It is an ideal solution for homes, offices, and hotels requiring a blend of international power standards and convenient USB charging capabilities.

Technical Specifications

USB Output

5 V

Voltage

2100 mA

Max Current

Material Composition

- Toughened glass faceplate
- High-temperature resistant PC material
- Anti-fade spray painted finish

Design Features

Fire Resistant • Big Button Switch • Universal Compatibility

Available Colors

Golden, White, Black
