Product Overview

Versatile Roof Rack Solution

These universal aluminum car roof rack cross bars are engineered for durability, corrosion resistance, and aerodynamic performance. Designed to fit vehicles with existing raised side rails, they provide a secure and stable platform for transporting luggage, cargo boxes, kayaks, and other outdoor gear. With an adjustable clamp system and a high load capacity, these bars offer a reliable solution for expanding your vehicle's cargo capabilities.

Technical Specifications

Load Capacity

68 kg

Max Load

150 lbs

Max Load

Available Sizes (cm)

- 127 x 90
- 127 x 96
- 140 x 100
- 160 x 110

Material

Aluminum Alloy

Compatibility & Design

Available Colors

Black • Silver

Key Features

- Aerodynamic profile to minimize wind noise
- Corrosion-resistant construction
- Adjustable clamps for custom fit
- Integrated locking mechanism for security

Vehicle Compatibility

Universal Fit, Raised Side Rails
