

Universal Battery Charger with LED Indicator

This battery charger is designed for charging a variety of rechargeable batteries. It features a compact design with a built-in AC plug and an LED indicator.

Overview

Versatile Charging Solution

This universal battery charger is designed for efficiency and convenience, featuring a compact, direct-plug design for seamless wall outlet integration. It supports a wide range of rechargeable batteries, including Lithium-Ion types, making it a flexible tool for various applications. With built-in LED status indicators and robust safety protocols like overcharge and short-circuit protection, it ensures reliable and safe charging performance.

Technical Specifications

Input Voltage Range	100-240V AC
Input Frequency	50/60Hz
Output Voltage	4.2 V DC
Output Current	500 mA

Features & Safety

User Interface	
LED Indicator	
Safety Protections	Overcharge Protection, Short Circuit Protection
Design	Compact Direct-Plug

Compatibility

Supported Battery Types

- Lithium-Ion
- Various Rechargeable Batteries
