Overview

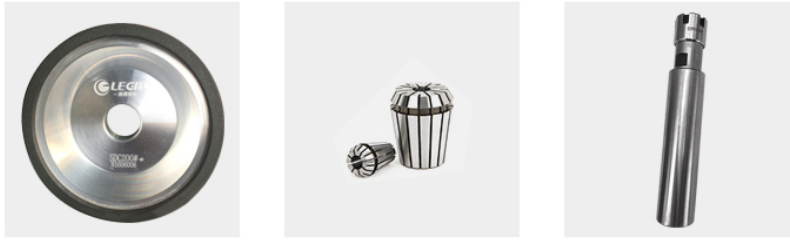

Precision drill bit sharpener with integrated camera and display for real-time monitoring.

Precision Drill Bit Sharpening

The MR-6A is a high-precision grinding machine engineered for rapid and accurate sharpening of drill bits. Featuring an integrated camera and monitor system, it allows for meticulous visual inspection and alignment during the sharpening process. This machine is designed to improve drilling efficiency, extend tool life, and maintain consistent cutting performance for various industrial applications.

Technical Specifications

User-friendly control panel with adjustable settings for precise grinding angles.

Grinding Range	1mm - 6mm
Point Angle	90° - 150°
Rotation Speed	4400 rpm
Motor Power	250 W
Power Supply	AC 220V

Dimensions and Weight

Equipment

Compact design includes a storage drawer for organized collets and grinding wheels.

Standard Equipment

- CBN Grinding Wheel (for HSS)
- 11 Collets: 1mm to 6mm
- Collet Chuck

Optional Equipment

SD Grinding Wheel (for Carbide)

Certification

Compliance
CE Certified
