Product Overview

High-Performance Universal Motor

This 8825C universal motor is engineered for high-demand kitchen appliances including blenders, food processors, juicers, and meat grinders. Designed with a robust laminated stator core and copper windings, it ensures efficient electromagnetic conversion and reliable power delivery. The unit features integrated thermal protection and flexible bearing options, making it a versatile choice for various appliance manufacturing requirements.

Electrical Specifications

Voltage Range	110V - 240V
Frequency	50/60Hz
Power Draw	400 - 500 Watts

Performance Metrics

Speed

20000 RPM
Min Speed

25000 RPM
Max Speed

Mechanical Specifications

Lamination Diameter	88 mm
Shaft Diameter	8 mm
Bearing Options	Sleeve Bearing, Ball Bearing

Safety & Compliance

Insulation Class

Class E • Class F

Protection

Thermal fuse devices (with or without reset function)

Applications

Compatible Appliances

- Food Processor
- Blender
- Juicer
- Chopper
- Meat Grinder
- Bar Mixer
- Cutter
