Product Overview

Universal Grounding Duplex Receptacle

This grounding duplex universal receptacle is engineered for reliable and safe electrical connections in both residential and commercial environments. Designed with high-quality silver alloy contacts and phosphor bronze sockets, it ensures excellent electrical conductivity, lasting elasticity, and superior resistance against electric arcs and melting. The unit features a versatile design compatible with various international plug configurations, making it a robust solution for diverse electrical installations.

Technical Specifications

Contact Material	Silver alloy
Socket Material	Phosphor bronze

Performance Metrics

Operational Life

40000 cycles
On-Off Operations
