

Universal Travel Adapter with Multiple Plug Configurations

This adapter supports universal voltage input and provides a DC 5V/3.4A output. Its compact design includes multiple plug types suitable for use in various countries.

Product Overview

Universal Travel Solution

The UC-L31 is a versatile travel adapter designed for seamless international connectivity across multiple global regions. It features a universal wide-range input of 100-240V, making it suitable for use in various electrical environments from the US to Australia. With its compact design and multi-plug configuration, it is an essential tool for business travelers requiring reliable power.

Technical Specifications

| | |
|------------------------|-------------------------------|
| Model Number | UC-L31 |
| Input Voltage/Rate | AC 100-240V, 50/60Hz |
| Output Voltage/Current | DC 5V 3.4A |
| Input Current | 0.4 A |
| Materials | Copper, PC fire-proof plastic |

Compliance & Safety

Safety Authentication

CE • RoHS

Dimensions & Compatibility

Supported Regions

- Taiwan
- Japan
- USA
- Canada
- Philippines
- China
- Thailand
- England
- Hong Kong
- UAE
- Singapore
- Malaysia
- Russia
- South America
- Australia
- New Zealand

Dimensions (L x W x H)

56.2mm x 56mm x 42mm
