

Universal USB Battery Charger

This compact battery charger is designed for efficient and safe charging of rechargeable batteries. It features a durable plastic housing and a universal USB interface for versatile power input.

Product Overview

Universal Charging Solution

This compact battery charger is engineered for the efficient and safe replenishment of rechargeable batteries. Featuring a durable plastic housing and a secure retention mechanism, it ensures reliable performance and longevity. With its universal USB interface, it offers versatile power input options, making it an essential tool for maintaining power across a wide range of electronic devices.

Design & Build

Housing Material	Durable Plastic
Battery Retention	Yes

Power & Connectivity

Input Interface	Universal USB
