Product Overview

Professional Stability for Woodworking

The Universal Wood Lathe Stand provides a robust and reliable foundation for various bench lathes, ensuring minimal vibration for precise turning tasks. Engineered with heavy-duty steel, it features a fully adjustable width and height to accommodate different equipment sizes and ergonomic needs. This modular stand is an essential workshop upgrade for both professional and hobbyist woodworkers seeking to stabilize their turning operations.

Technical Specifications

Compatible Lathe Series

- W4-L10
- W4-L12
- W4-L14A

Construction Material

Heavy-duty steel

Key Design Features

Adjustable Width, Adjustable Height, Slotted Mounting Holes, Leveling Feet

Model Identifier

W4-LS18

Configuration

2 Legs
