

Unpainted Diamond Frame for Bicycle Builds

This is an unpainted bicycle frame with a classic diamond design. It is suitable for custom bicycle builds or as a replacement frame.

Product Overview

Unpainted Diamond Frame

This unpainted diamond frame provides a robust and versatile foundation for custom bicycle builds and restoration projects. Featuring a traditional geometry, the frame includes a complete structure with top, down, seat, and chain tubes, as well as a ready-to-use bottom bracket shell. The raw metal finish allows for complete customization, making it an ideal choice for builders seeking a blank canvas.
