

# Unshielded Twisted Pair Communication Cable

This unshielded twisted pair (UTP) cable is designed for data and signal transmission. It features multiple color-coded twisted wire pairs within a protective outer jacket.

## Overview

### Unshielded Twisted Pair Communication Cable

This unshielded twisted pair (UTP) cable is engineered for reliable data and signal transmission within modern communication networks. Featuring multiple color-coded twisted wire pairs housed within a durable protective outer jacket, it ensures consistent performance for standard networking requirements. This cable, identified as model SC6504, provides a robust solution for structured cabling needs in professional environments.

## Technical Specifications

Model Number	SC6504
Cable Type	Unshielded Twisted Pair (UTP)
Primary Application	Data Transmission, Signal Transmission, Communication Networks

## Construction

### Design Features

- Multiple color-coded twisted wire pairs
- Protective outer jacket
