

Unshielded Twisted Pair UTP Cable

Unshielded twisted pair (UTP) cable designed for data transmission in networking applications. It features color-coded twisted pairs for easy identification and installation.

Product Overview

High-Performance UTP Networking Cable

This Unshielded Twisted Pair (UTP) cable is engineered for reliable data transmission in professional networking environments. Featuring color-coded twisted pairs, it ensures efficient identification and simplified installation across various infrastructure setups. Designed to support diverse communication protocols, this cable is a versatile solution for robust network connectivity.

Technical Specifications

Cable Type	Unshielded Twisted Pair (UTP)
Model Identifier	SC6601
Key Features	Color-coded pairs, Data transmission optimized, Easy installation

Compliance & Identification

Visible Markings
SAECY • SC6601
