

Upright Vacuum Cleaner with Detachable Canister

This upright vacuum cleaner features a detachable canister for portable cleaning. It includes a flexible hose, extension wand, and a motorized brush head for effective dirt and debris removal from various surfaces.

Product Overview

Versatile Cleaning Solution

This upright vacuum cleaner features a convenient detachable canister design for seamless transition between upright and portable cleaning modes. Equipped with a motorized brush head, a flexible hose, and an extension wand, it is engineered for efficient debris removal across both carpets and hard floors. The integrated transparent dustbin allows for real-time monitoring of fill levels, while the HEPA filter system ensures that allergens and fine particles are effectively captured.
