

Upright Vacuum Cleaner with Motorized Brush

This upright vacuum cleaner is designed for efficient and convenient cleaning. It features a lightweight design, powerful suction, and a motorized brush head suitable for both hard floors and carpets.

Product Overview

Professional Cleaning Performance

This versatile 3-in-1 vacuum cleaner transitions seamlessly between handheld, stick, and upright modes to handle any cleaning task. Equipped with a high-efficiency 600W motor and advanced cyclonic technology, it ensures consistent suction and powerful performance. The inclusion of a washable HEPA 13 filter guarantees that expelled air remains clean, making it an excellent choice for maintaining high hygiene standards.
