

Urban Commuter Motorcycle

This motorcycle is designed for street use, particularly for commuting. It features a single-cylinder engine, chrome exhaust pipe, and a classic design suitable for urban environments.

Overview

Urban Commuter Motorcycle

Designed for efficiency and style in city environments, this commuter motorcycle features a classic design aesthetic. It is equipped with a reliable single-cylinder engine and distinctive gold-colored rims. The flat seat and round headlight profile make it a practical and visually appealing choice for daily urban transit.
