

Urban Commuter Motorcycle

This motorcycle is designed for urban commuting and light transportation. It features a step-through frame, front suspension forks, and a chrome exhaust.

Overview

Designed for Efficient Urban Mobility

This urban commuter motorcycle is engineered for reliability and convenience in city environments. Featuring a practical step-through frame design, it offers ease of use for daily transportation needs. Equipped with integrated storage solutions like a front basket and rear rack, this vehicle is perfectly suited for light cargo and personal commuting.
