

Urban Delivery Tricycle with Enclosed Cargo Box

This tricycle is designed for urban transport and delivery needs. It features an enclosed cargo box and a stable dual-wheel rear axle.

Overview

Urban Delivery Solution

The LD800ZH-B is a specialized commercial tricycle engineered for efficient urban logistics and last-mile delivery. Featuring a highly stable three-wheel design with a dual-rear axle, it offers superior balance for maneuvering through congested city streets. The integrated enclosed cargo box ensures secure transport, while the protected operator cabin provides essential comfort and visibility for the driver.
