

Urban Electric Step-Through Scooter

This electric scooter is designed for urban transportation. It features a step-through frame for easy access and a rear storage compartment.

Overview

Urban Mobility Redefined

The Urban Electric Step-Through Scooter is designed specifically for efficient city commuting. Its accessible step-through frame ensures easy mounting and dismounting, while the integrated comfortable seat provides an ergonomic riding experience. Equipped with reliable components and convenient storage, it offers a practical solution for daily urban travel.
