Product Overview

High-Performance Charging and Syncing

This premium USB-C to Lightning cable is engineered for rapid data transfer and high-efficiency Power Delivery (PD) charging. Featuring a durable nylon fiber exterior and an alloy-molded shell, it provides superior protection against wear and external friction. Designed for both modern mobile devices and laptops, it ensures a stable and shielded connection for all your essential Apple equipment.

Technical Specifications

Max Data Transfer Rate	480 Mbps
Charging Standard	Power Delivery (PD)
Shielding Technology	Gold-plated layer, Shielding shell, Anti-interference

Compatibility

Compatible Ecosystem

- iPhone 12/12Pro/12ProMax
- iPhone 11/11Pro/11Pro MAX
- iPhone XS/XS MAX/XR/X/8/8Plus
- Macbook Air/Pro
- Chromebook
- Tablets and cellphones with IOS

Build Quality

Design Advantages

Reversible connector • Tangle-free • Environmentally friendly • Wear-resistant

Materials Used	Nylon fiber, Alloy shell, Thick copper wire
