

USB Data Cable

This USB cable has a voltage rating of 30V and a temperature rating of 80 . It adheres to industry standards UL758, UL1581, and CSA C22.2 No.210.2.

Product Overview

Professional Grade USB Connectivity

This USB data cable is engineered to meet rigorous industry standards for safety and performance in professional electronic applications. With a focus on reliability, the cable is rated for consistent operation under specific thermal and electrical parameters. It serves as an essential component for secure data transmission and connectivity in demanding environments.
