

USB Powered Mosquito Killer Lamp with Electric Grid

This mosquito killer lamp is powered by USB for convenient operation. It uses an electric grid to eliminate mosquitoes and other flying insects.

Product Overview

Effective Mosquito Control

This USB-powered mosquito killer lamp is designed for efficient, chemical-free indoor insect control. It uses a blue light to attract insects and an electric grid to eliminate them effectively. Its compact and portable design makes it suitable for various rooms, while the durable ABS+PC construction ensures long-term reliability.
