Product Overview

Effective Photocatalyst Mosquito Control

This USB-powered mosquito trap lamp utilizes advanced photocatalysis technology to attract and eliminate flying insects in a safe, physical manner. Designed for indoor use, it creates a comfortable and mosquito-free environment for your home or office. The device is compact, lightweight, and features an efficient suction mechanism for optimal performance.

Technical Specifications

Applying Space

20 sqm

Min Coverage

50 sqm

Max Coverage

Power Supply	USB
Voltage	DC 5V
Power Consumption	5 W

Physical Attributes

Dimensions	10.5 x 10.5 x 18.5 cm
Net Weight	203 g

Features

Application

Indoor Use • Easy to Clean • Eco-friendly

Methodology	Photocatalyst, Suction Type, Physical Trap
