

USB Powered Multimedia Speaker System

This compact multimedia speaker system is designed for desktop or laptop use. It features a built-in amplifier, volume control, and a standard 3.5mm audio input for compatibility with a wide range of devices.

Product Overview

Compact Multimedia Audio Solution

This USB-powered multimedia speaker system is designed to provide clear audio for desktop or laptop environments. Featuring a built-in amplifier and simple 3.5mm connectivity, it offers a plug-and-play experience for various devices. The magnetically shielded design ensures compatibility with sensitive equipment, while the durable plastic enclosure and fabric grill offer a balance of longevity and style.

Technical Specifications

Power Output

2 W

RMS per channel

Frequency Response	150Hz - 20kHz
Input Impedance	4 Ohms

Connectivity & Power

Power Source	USB 5V DC
Audio Input	3.5mm standard jack

Design & Build

Construction Materials

- Durable plastic enclosure
- Fabric speaker grill

Key Features	Built-in Amplifier, Volume Control, Magnetically Shielded
