Product Overview

Versatile USB-Powered Cooling Solution

This portable desk fan combines efficient cooling with integrated LED lighting, making it an ideal choice for both office and bedside use. Featuring a sleek circular design with a modern metallic finish, it offers a compact footprint without compromising on functionality. The touch-sensitive controls and USB-powered operation ensure a user-friendly experience for professional and personal environments.

Core Features

Main Functions

Cooling Fan, LED Light, Rotation Function, USB Powered

Design & Build

Design Specifications

- Circular fan head with protective grill
- Multi-blade design for optimal airflow
- Cylindrical stand with stable circular base
- Touch-sensitive control interface
- Integrated LED ambient lighting strip

Power & Operation

Power Source

USB Charging • USB Powered

Adjustability

- Adjustable speed settings
- Oscillation/Rotation control
- Light function toggle

Control Method

Touch-sensitive base controls
