

# USB Rechargeable Handheld Mini Fan with 2200mAh Power Bank

This handheld mini fan features a USB rechargeable design and a built-in 2200mAh power bank. It offers a portable cooling solution with the added benefit of charging mobile devices.

## ADDITIONAL IMAGES

## Product Overview

### Compact Cooling and Power Solution

This 2-in-1 handheld mini fan serves as both a personal cooling device and a convenient 2200mAh portable power bank. Its compact cylindrical design and high-speed motor make it an ideal travel companion for on-the-go cooling and mobile device charging. With a stylish textured surface and detachable blade design, it combines professional aesthetics with functional portability.

## Technical Specifications
