Product Overview

Innovative Portable Grinding Solution

This multi-purpose electric grinder is designed for efficient, consistent processing of herbs, spices, and small dry materials. Featuring a powerful motor and durable stainless steel blades, it offers a hands-free grinding experience with an automatic 40-second safety shut-off. Beyond its primary function, the device serves as a portable power bank, allowing users to charge mobile devices on the go.

Technical Specifications

Motor Speed

20000 rpm/min

Rotational Speed

Battery Capacity

2000 mAh

Dimensions

1.7 inch diameter x 8 inch height

Blade Construction

Double Leaf, Stainless Steel

Operational Features

LED Status Indicators

Status	Indicator Color
Charging Device	Red
Grinding In Operation	Blue
Power Bank Function	Green

Safety Functions

- Automatic 40-second shut-off
- Smart chip motor control
- Overload protection (stops if material gets stuck)
