

USB to Lightning Cable

This USB to Lightning cable is designed for charging and synchronization. It features durable nylon fiber cloth for protection, strength, and flexibility and is compatible with iPhone, iPad, and iPod devices with Lightning connectors.

Product Overview

Reliable Connectivity for Apple Devices

This high-performance USB to Lightning cable is engineered for both rapid charging and efficient data synchronization. Utilizing high-quality copper wiring, it ensures maximum signal integrity and strength for all connected devices. The exterior is reinforced with durable nylon fiber cloth, providing superior protection, flexibility, and a long operational lifespan.

Technical Specifications

Rated Current

2.4 A
Rated Current

Available Lengths

- 0.8M
- 1M
- 1.2M

Material	TPE and Nylon Fiber
Swing Test Rating	5000 cycles

Compatibility

Connector Types

USB-A • Lightning
