

USB Type-A to Type-B Cable

This cable features a USB Type-A connector on one end and a USB Type-B connector on the other end. It is designed for connecting peripherals such as printers, scanners, or external hard drives to a computer.

Product Overview

Reliable Connectivity Solution

This high-quality USB Type-A to Type-B cable is engineered for seamless connectivity between computers and essential peripherals. Designed with durability in mind, it features a flexible jacket that simplifies installation and routing in any workspace. The molded connectors include integrated strain relief to withstand daily use, ensuring reliable performance for printers, scanners, and external drives.
