

Utility Motorcycle with Front and Rear Racks

This is a utility motorcycle designed for cargo transport. It features front and rear racks, a step-through frame, and a comfortable seat with a backrest.

Overview

Utility-Focused Design

This utility motorcycle is engineered for reliability and practical cargo transport in demanding environments. Featuring a robust step-through frame, it comes equipped with both front and rear racks to maximize load capacity. Its air-cooled, 4-stroke engine ensures consistent performance for daily tasks, making it an ideal solution for delivery or light utility work.
