

Utility Motorcycle with Luggage Rack and Auxiliary Lighting

This utility motorcycle features a step-through frame for easy access. It includes a rear luggage rack, windscreen, and pole-mounted light.

Overview

Utility and Patrol Motorcycle

This utility motorcycle is purpose-built for urban and suburban patrol, security, and escort duties. Featuring a robust single-cylinder engine and a practical step-through frame, it allows for quick and easy mounting. Equipped with a rear luggage rack, windscreen, side cases, and specialized auxiliary lighting, this vehicle is designed for reliability and operational efficiency in professional environments.
