

Utility Tricycle with Cargo Bed

This robust tricycle is designed for utility and transportation purposes. Featuring a sturdy frame and a powerful engine, this tricycle is capable of carrying heavy loads.

Product Overview

Robust Utility Tricycle

This utility tricycle is engineered for heavy-duty transportation and commercial applications. With its durable three-wheel chassis and high-capacity cargo bed, it provides excellent stability and maneuverability across various terrains. Designed for reliability, this vehicle is an ideal solution for industrial goods transport and professional logistics requirements.

Technical Specifications

Model	150ZH-16
Category	Utility Tricycle

Key Features

Design Highlights

- Spacious rear cargo bed
- Ergonomic operator seating
- Enhanced three-wheel stability
- Heavy-duty reinforced frame

Application Features	Heavy Load Capacity, Commercial Grade, Industrial Use, Stability Optimized
