

# UTP CAT6 Ethernet Cable

This UTP CAT6 cable is used for signal transmission in various market applications. It offers competitive pricing while maintaining good signal quality.

## ADDITIONAL IMAGES

## Overview

### High-Performance CAT6 Connectivity

This Unshielded Twisted Pair (UTP) CAT6 Ethernet cable is engineered for reliable high-speed data transmission in modern networking environments. Featuring a central spline and 23 AWG solid copper conductors, it effectively reduces crosstalk and maintains signal integrity for Gigabit Ethernet protocols. The durable outer jacket and optimized internal structure make it an ideal choice for supporting voice, data, video, and Power over Ethernet (PoE) applications.

## Technical Specifications

<b>Cable Type</b>	UTP (Unshielded Twisted Pair)
<b>Conductor Gauge</b>	23 AWG
<b>Conductor Construction</b>	Solid Copper
<b>Internal Features</b>	Central Spline, Four Twisted Pairs, Color-coded Conductors

## Network Compatibility

### Network Protocols

- Ethernet
- Fast Ethernet
- Gigabit Ethernet

### Primary Applications

Voice • Data • Video • PoE
